Subject: North Bend Wind Project

CAUTION: This email originated from outside of the organization.

Mr Booth and Board of Adjustment,

I received your letter informing us that there is a public hearing regarding the North Bend Wind Project. I sent photos previously on this subject as to what was left of the antiquated ones we have here in Oklahoma. I am not interested in having them on my land destroying the beauty of S Dakota. Actually I am against it in all aspects. The ones here in our community have declared bankruptcy and been sold to other companies which leaves them non functional during transition. Our roads and highways are being destroyed by the big trucks and traffic.

Thank you,
Cozette Hurn Riffel
