Subject: North Bend Wind Project Conditional Use Permit

Hi Eric,

My name is Jill Baird and I have land in the North Bend Wind Project. As a landowner, I am very excited about this project moving forward not only to benefit my family and I but for the benefit of the county and state as well. I believe renewable energy is the way of the future. This will especially benefit our local family ranchers as well as their kids and grandkids. I have researched wind power and feel the benefits outweigh the risks. Also, I feel Engie is a very reputable company.
